Rt. 8, Frederick, Md. 21701
2/10/75

Dear M------?

There is a big difference between Maxie and Maxine, but in this case the difference was my ability to read. We both have the same handwriting problem and I had trouble with yours. If I erred, no offense intended.

Please note the address at which we've been for going on eight years.

Except for Oswald in New Orleans noneof my books is out of print so no reprinting is necessary. When that times comes I don't know what I'll do because I will not be able to pay for reprinting.

I enclose a list and order form.

Dick Gregory is a friend.

The work on the film they showed was originally done for me.

However, I'd caution you against believing all you heard on that show because much of it just wasn't dependable. The motion of the President's body is and means that the official story can't be credited.

I fear it will kick back.

Best regards,

Harold Weisberg
